

# PM-604 ALGINET

## ALGAECIDE

**PM-604 ALGINET** is a quaternary ammonium-based product that prevents algae growth. It is very useful for both uses; shock treatment and pool maintenance.

### METHOD OF USE AND DOSAGE:

- Before using it, check the phosphate levels in water with an Insta-Test phosphate.
- If the phosphate levels are higher than 200 ppm, the treatment corresponding to the PM-625 PHOS-OUT should be carried out before using the algaecide.
- Add the product directly to the pool while the filtration is on. pH should be between 7.2 and 7.6
- Initial treatment: add 2 L/100m<sup>3</sup> of water.
- Maintenance dose: add 1 L/100 m<sup>3</sup> of water every week.
- Shock dose: add 5 L/m<sup>3</sup> of water.

### PHYSICAL PROPERTIES:

- Appearance: Pale blue liquid
- Odour: Slightly characteristic
- Density: 1.000 – 1.025 g/cm<sup>3</sup>
- pH: 8.5 – 10.0
- Water solubility: miscible at any proportions

### HAZARDS AND PRECAUTIONARY STATEMENTS:

- Causes serious eye irritation.
- Very toxic to aquatic organisms. May cause long-term adverse effects.
- Keep out of the reach of children
- In case of accident or if you feel unwell seek medical advice immediately (show the label when possible).
- Avoid release to the environment. Collect spillage.
- This material and its container must be disposed of in a safe way.

### PACKAGING:

Packed in 1, 5 and 20 L
