

PM-102 SCALE&STAIN CLEANER

ACID CLEANER

PM-102 SCALE&STAIN CLEANER: A powerful lime and oxide stain cleaner which can be applied to any surface (liner, polyester, PVC, ceramic, stainless steel, etc.). It contains additives which help to penetrate and eliminate lime incrustations without attacking the seals or emitting harmful vapours.

METHOD OF USE AND DOSAGE:

- First apply the product to a small area that is not visible to check how resistant the material is. If it is worn or damaged, it may become discoloured or damaged. Wait around 8 hours to see the results before cleaning the rest.
- Depending on scales to be removed, it can be used alone or diluted 50% with water.
- Apply (directly or with a brush) to the surface being cleaned.
- Allow the cleanser to work for 5-10 minutes.
- Brush, focusing on areas with more scale.
- Rinse with water.

PHYSICAL PROPERTIES:

- Appearance: Colorless liquid
- Odour: Slightly characteristic
- pH: 0 - 1
- Density: 1,052– 1,077 g/cm³
- Solubility in water: Miscible in water in all proportions

HAZARDS AND PRECAUTIONARY STATEMENTS:

- Causes severe burns.
- Wear suitable protective clothing, gloves and eye/face protection.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

PACKAGING:

750 mL sprayer. 5 L and 20 L containers.
